**Subject:** Microsoft Settlement

I am part of the worldwide network that is working to get BeOS back into the market place,  
but there is no hope to succes if the following issues aren't addressed:

At first I think it is important to make dual-boot options mandatory,  
moreover open Office file formats would be a great thing.

I hope this letter helps, and I wish you all the best for your Settlement!

with regards,  
Philipp Resl
